# Gender Pay Gap Report 2022

## Introduction

At RMBI Care Co.,
we care for older
Freemasons, their
families and the
wider community by
providing residential
care, nursing care
and residential
dementia support,
limited sheltered
accommodation and
short stay breaks.

Our focus is to ensure that by living our values of Kind, Supportive and Trusted our residents can have a perfect day, each and every day. Achieving this together with support to residents' families can only come from a highly motivated and engaged staff team. We invest in attracting and recruiting people who share our values and then provide comprehensive induction and ongoing learning and training initiatives. We offer a range of career opportunities including full time, part-time and bank roles, ensuring that all staff are paid equally regardless of gender and other characteristics within our equal opportunities policy. We also offer a range of wellbeing benefits and Wellbeing Champions are at each location as we recognise that carers often forget about themselves, and we want to ensure that our staff have access to a range of health and support groups.

RMBI Care Co. is required to publish an annual gender pay gap report in line with the standard methodologies used in the Equality Act 2010 (Gender Pay Gap Information) Regulations 2017. This statement provides our pay data as at 5 April 2022 and is provided from 1,169 relevant full pay employees at 18 residential care home locations across England and Wales and at the head office in London with national and regional support roles.

We have significantly more women than men in the organisation including front line care staff and members of our management team.

Our data is shown in the following report and is presented in three ways: our hourly paid front line care and support staff, our salaried staff which includes a range of roles, and as a whole company.

### **Louise Bateman**

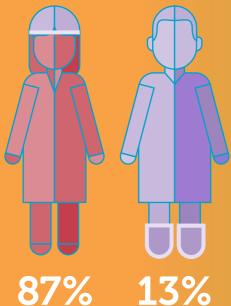

Group Human Resources Director 29 March 2023

Data for our hourly paid staff based in our older persons' and learning and disabilities residential services in England and Wales.

Data for our salaried staff based at our head office, national, regional and all Homes' management teams.

There are 908 relevant full pay employees in this group of which

are female

are male

89% of staff in the upper pay quartile are female

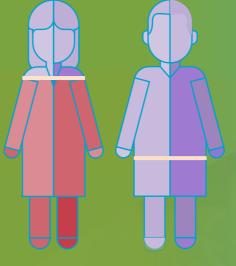

The difference between male and female pay

gap" in the UK

-1.74% Mean pay gap

-3.75% Median pay gap

There are 189 relevant full pay employees in this group of which

65% are female

The difference between male and female pay

9.12% Mean pay gap Our gender pay gap has increased by 4.12% since the previous year.

> -1.46% Median pay gap

6 RMBI CARE CO.

As at 5 April 2022 there were 1,169 relevant full pay employees in all roles and locations

84% are female are male

The pay quartiles are presented below and it is noted that females in all quartiles are higher than male colleagues. It is seen that males are more attracted to more senior roles, which is typical of the sector, and also shows an increase since the previous year.

| Pay<br>Quartile             | Males  | Females | Description   |
|-----------------------------|--------|---------|---|
| Lower<br>Quartile           | 13.70% | 86.30%  | Includes all employees whose<br>hourly rate places them<br>at or below the lower quartile                         |
| Lower<br>Middle<br>Quartile | 16.78% | 83.22%  | Includes all employees whose<br>hourly rate places them<br>above the lower quartile but at<br>or below the median |
| Upper<br>Middle<br>Quartile | 14.33% | 85.67%  | Includes all employees whose<br>hourly rate places them<br>above the median but at or<br>below the upper quartile |
| Upper<br>Quartile           | 20.89% | 79.11%  | Includes all employees whose<br>hourly rate places them<br>above the upper quartile                               |

For the whole organisation our average or mean hourly pay represents a **14.60%** gender pay gap; however, the median pay gap is **2.09%** which is lower than the previous year which reported at **5.32%** but is lower than the UK median of **8.3%**.

## Bonus pay

RMBI Care Co. has an approach of paying only moderate bonuses to individual members of staff. The proportion of males employed by RMBI Care Co. who received a bonus in the 12 months up to 5 April 2022 was **70.69%**, while **89.15%** of females received a bonus. The Mean bonus pay gap reports as **-14.7%** and the median bonus pay gap reports as **-4.42%**.

What is our data showing in terms of gender pay gap and how do we manage this?

As can be seen from the data presented in the report, RMBI Care Co. has reduced their median gender pay gap in the twelve month period and is still below the UK median pay gap.

RMBI Care Co. has a formal Remuneration Committee that meets each year to review pay across the organisation. We contribute to a range of external salary surveys and pay data reports to ensure that we remain competitive in our sector to retain and attract staff and importantly to ensure we are fair and do not discriminate.

Our recruitment initiatives are open to both men and women and we actively encourage applications from men to ensure that our male residents have support from male carers.

How does RMBI Care Co.'s gender pay gap compare with that of other organisations? The vast majority of organisations have a gender pay gap, and RMBI Care Co.'s gap continues to compare favourably with that of other organisations. The median gender pay gap for the whole economy (as reported by the Office for National Statistics (ONS) Annual Survey of Hours and Earnings (ASHE) figures) is **8.3%**. At **2.09%**, RMBI Care Co.'s median gender pay gap is, therefore, considerably lower than that for the whole economy.

RMBI Care Co. provides residential care, nursing care and residential dementia support to older Freemasons, their families and people in the wider community.

We have been caring for older people for over 180 years and today, we support over 900 residents across 17 care homes in England and Wales with a focus on wellbeing and quality outcomes.
